ROCKINGHAM ECONOMIC
DEVELOPMENT CORPORATION

Comprehensive Economic Development Strategy **CEDS** *Planning for the future of Southern New Hampshire*

■ Keynote speaker: Ross Gittell, Ph.D. ■

Mr. Gittell is the James R. Carter Professor at the University of New Hampshire's Whittemore School of Business and Economics. Professor Gittell's scholarly focus involves applying economic, organizational and management theory to regional, state, and community economic development issues. His main areas of specialization and research include entrepreneurship, employment generation, equitable development and collaborative (public and private sector) efforts. He is the author of two books and over 50 academic articles. His research has been funded by the National Science Foundation, the Rockefeller Foundation, and the Energy Foundation. **Mr. Gittell will present the economic outlook for the State and Region, and discuss the following questions: Is the great recession over; what will the recovery be like when it comes in the State and Region; and what will be the role of the green economy in the State's and Region's economic future?**
