The conservation lands data layer describes parcels of land of two or more acres that are mostly undeveloped and are protected from future development. Unique or adjoining smaller parcels, as well as selected state-owned parcels, may also be included.

Unverified Protected Lands:
The dataset was created from a number of datasets submitted to the RPC from various entities (mostly towns). Although these data have been processed successfully on a computer system at the Rockingham Planning Commission, no warranty is expressed or implied as to accuracy or utility of the data or any other system. No liability is assumed for any errors or omissions in the data, nor shall the act of distribution constitute any such warranty. It is also strongly recommended that careful attention be paid to the contents of the metadata file associated with these data to evaluate data set limitations, restrictions or intended use. Rockingham Planning Commission shall not be held liable for improper or incorrect use of the data described and/or contained herein.

This is a preliminary version of the Conservation and Public Lands data set. This dataset has not been verified and has no backing data. State Park, Forest, and State-owned parcels may also be included.
