Christopher M. Waszczuk Director of Project Development NH Department of Transportation P.O. Box 483 Concord, NH 03302-0483

## RE: RPC MPO Approval of FY 2015-2018 TIP Amendment #3

Dear Mr. Waszczuk,

This letter is to inform you that on April 13<sup>th</sup>, 2016, the Rockingham Planning Commission, meeting as the MPO Policy Committee, <u>approved Amendment #3 to the 2015-2018 Transportation</u> <u>Improvement Program (TIP)</u>. Amendment #3 was approved following appropriate public notice, a 10-day comment period, and public hearing as required in our Prospectus. The public notice and project information can be found at the RPC website (<u>www.rpc-nh.org</u>), and these documents detail the changes that Amendment #3 has made to the RPC 2015-2018 TIP.

Based on the information provided regarding the movement of projects in time, changes in project scopes and costs, and taking into account the comments received, it has been determined that:

- The changes proposed by this TIP amendment are primarily the result of programming changes determined to be necessary by the NHDOT and subsequently endorsed by the MPO.
- The fiscal constraint of the TIP/STIP is maintained according to the DOT documentation is included in the informational packet on the RPC website as well as on the NHDOT STIP Amendment page on the NHDOT website.
- The projects listed in first four years of the financially constrained Long Range Transportation Plan (LRTP) are consistent with the project listings in the 2015-2018 TIP, which, by design, is incorporated as the LRTP's short-range project-specific list.
- The projects listed in the TIP are the result of a regional project selection process undertaken by the RPC as part of the development of the 2015-2024 State Ten Year Plan. This process evaluated 104 projects pulled from previous plans, corridor studies, and submitted by member communities to establish priorities for the State Ten Year plan using a common set of selection criteria agreed upon by each MPO and NHDOT. At the April, 10<sup>th</sup>, 2013 meeting of the RPC MPO a motion was passed to submit a prioritized and constrained list of 76 projects could potentially be funded. These project recommendations are consistent with the goals of the region's Long Range Transportation Plan.
- As of July 20, 2013, all of New Hampshire is unclassifiable/attainment for the 2008 8-Hour Ozone National Ambient Air Quality Standards (the 2008 ozone standard), and as of April 6, 2015, the 1997 8-Hour Ozone National Ambient Air Quality Standard (the 1997 ozone

standard) is revoked for all purposes, including transportation conformity in the Boston-Manchester-Portsmouth (SE) NH area.

• Consistent with the RPC's Public Participation Process, this notice and comment period is also intended to meet FTA requirements for public comment on the programs of transit projects put forward by NHDOT, UNH and the COAST and CART transit systems.

Based on these points the MPO voted to approve Amendment#3 to the 2015-2018 TIP inclusive of the project changes listed on the following pages.

Sincerely,

hil Smith

Cliff Sinnott Executive Director
